Dear Mr Burke,

St Albans Abbey branch line - Watford

Thank you for your communication regarding the above matter.

Please accept my apologies for the delay in responding to you. I have received information from the Watford Area Renewals project team advising that after the resignalling and track work has carried out, and the signalling commissioned, there will be the ability to have trains between the West Coast and the Abbey line carrying passengers. This will allow services to be timetabled in order to use this capability if requested by the train operating companies.

I hope this information is of assistance to you.

Yours sincerely,

Laura Dyer
Community Relations Executive
